Sr. Chair Report

Sr./JR. Champs: overall a huge success. I believe that it fulfilled most of the goals for the two meets. Approximately 1100 athletes participated with time lines appropriate for championship level meets. Time standards produced the kind of meets we were looking for.

Concerns: we had a great balance in numbers between the two meets, maintaining that will be extremely important to keep the meets manageable. Keeping track of bonus swims in Sr. Champs that are duplicated events in Jr. Champs could become an issue. Meet announcement probably needs to clarify number of swims per day an athlete can participate in and eligibility for relays should be addressed.

NCSA Meet several PVS clubs participated with many outstanding swims and the overall performance by PVS athletes was very evident. PVS also contributed several key officials to the meet held in Orlando with over 1200 athletes swimming.
