

Potomac Valley Swimming Operations Division Report

October 14, 2012

Based on the groundwork done by Brian Pawlowicz, the PVS equipment has been moved to a storage location at the Eppley Recreation Center on the University of Maryland. Carrie Tupper has taken over the job of maintaining this equipment. Inventory and assessment of the state of the equipment is in process and should be available in next month's report.

As stated elsewhere, PVS will no longer be providing delivery service to clubs/organizations renting PVS equipment. Clubs will be required to pick-up/return the equipment to the storage location at UMD. Details of this program will be on the PVS website this week.

Tim Husson
Vice Chair, PVS Operations Division
