

Operations Division

- The Equipment Manager has identified a list of new equipment needed, which I have approved for purchase.
- The Equipment Manager has identified a list of equipment to be returned to CTS for repair. I have approved this, and it will happen very soon.
- PVS equipment has been rented for a number of high school meets this year in both Virginia (district and regional meets) and Maryland (regional meets).
- A scratch box, scratch cards, and DQ slips have been procured for the SC Senior Championships.
- A total of 15 H.S. meets this year have been sanctioned for USA-S Observation this year.
- Notes about the entry process and operation for the SC Senior Championships have been posted on the website. They will be emailed to all PVS coaches (and invited teams) soon.

Technical Committee

- Jim Thompson has run another iteration of his JO Qualifiers spreadsheet. There are now 1223 swimmers qualified for the meet.
- I learned of the fact that the same person was the meet referee for two meets on the same date and time in February. The Technical Committee will not recommend sanctioning any meets in the future that list a meet referee that is already listed for another meet at the same time.

Webmaster

- All meet announcements for the March championship meets are now posted. Thanks Terri!
- OME for SC Junior & Senior Champs opened on Jan. 28. OME closes Feb. 26.
- I am again posting results of all H.S. championship meets (at least the ones I receive). PVS has provided this service since 1997.
- The PVS website provided real-time results for the IMX Meet.
