

Potomac Valley Swimming Operations Division Report

June 2014

The Virginia State LC Championships meet was the first meet in PVS to use chase starts. About 40 minutes was saved from the timeline on both Saturday and Sunday. Additionally, 100% positive check-in saved an additional 17 minutes on Saturday and 24 minutes on Sunday. This allowed the meet to be run within the contracted pool rental time. There were no problems with using this format.

Safety Committee

Nothing to report this month.

Equipment

We purchased another 50M extension harness and some minor supplies from Colorado Timing Systems.

Technical Committee

The committee worked on several meets for compliance with the 4-hour rule for 12&U sessions.

The committee worked on a solution to handle the long timelines for the PVS LC 1 meet. Chase starts will be used at Fairland for the 13&O session and possibly the 11-12 session.

Officials Committee

Requests for approval of Officials Travel Reimbursement requests for the Grand Prix meets in April and May will be presented to the Board.
