

Operations Division Report
House of Delegates Meeting
Potomac Valley Swimming
May 23, 2012

Officials:

- Jack Neill as the current PVS Officials Chair continues to do an excellent job maintaining consistency and professionalism among our corps of volunteer officials.
- The officials committee meets on a regular basis to discuss policy and procedure as well as offer an opportunity for opinions to be expressed and discussed. PVS continues to offer several meets a year that allow for officials to be nationally evaluated and recognized for their skill level. Our very full schedule of meets each season could not occur without the support of all those who volunteer. PVS thanks all volunteers for their time.

Equipment:

- PVS purchased several new pieces of equipment, including:
 - Full set of CTS Pads
 - 2 new harnesses
 - 3 new computers – May 2012
 - 60 new buttons
- As of July 1, 2012, PVS equipment, (except computers), will begin to be moved from the current storage location and be stored at the University of Maryland. Maintenance and care of the equipment will also be included. Carrie Tupper, current aquatic facility director will oversee the care and storage of our equipment. The current plan also retains Dave Crocker as delivery and drop off person for the equipment. More detail to come as planning is finalized.
