

**ANNUAL REPORT**  
**Potomac Valley Swimming**  
**Strategic Planning Chair**

Since taking over the Position on September 1<sup>st</sup>, I have been gathering information and learning how the Strategic Planning Chair can assist our Athletes, Coaches and Volunteers. Specifically, how to assist in determining the best way to structure our Organization and position it for the future.

One of the tasks I inherited was to implement PVS achieving LEAP-3 Certification with USA Swimming. With this in mind, a full-day LSC Governance and LEAP Workshop was held in December with the Board and other shareholders. USA Swimming offered the services of Jane Grosser as facilitator of the Workshop. The result was a streamlined Vision and Mission Statement, as well as significant progress toward achieving LEAP-3 Certification. A follow-up Session is currently being scheduled with Ms. Grosser, most likely in September.

Another project was the production of a Master Calendar for PVS, which includes all major competitions, as well as dates critical to the LSC's Governance. This Calendar is in final testing and will be available for all Members via a link on our Web Site by the end of May.

I look forward to your ideas and suggestions as the Strategic Planning function moves forward over the coming months.

Dave DiNardo  
Strategic Planning Chair
