

## **Admin Vice Chair Report to the HOD**

**April 16, 2023**

As Admin Vice Chair, I have spent most of this year learning the ropes of management within our LSC. It has been an informative year, filled with lots of opportunities to learn and listen to our PVS membership (coaches, officials, swimmers and even parents). As a collective unit, PVS has moved forward bringing new life into the LSC. We have seen an increase in the number of swimmers and are actively seeing an increase in the number of new officials.

Coaches, thank you for being there for our swimmers during the difficult times these past few years and for helping them to move forward again fearlessly! Thank you for chewing my ear at meets (both good and bad) and talking with me about what is important to you and how we can continue to improve PVS.

Thank you to our officials for your tireless devotion to our swimmers and coaches. Also thank you to our seasoned officials for lending your support and knowledge-base endlessly throughout this year. Also, thank you to the brave, new officials for stepping outside of what might be your usual comfort zone and being willing to lend a helping hand.

Swimmers, thank you for taking an active role in the management of the LSC. It is exciting to see young individuals voicing their opinions and ideas. We appreciate your point of view and are here to help your dreams blossom. We look forward to providing you the opportunity to attend the Leadership conference and having even more swimmer involvement at the LSC level. The idea of bringing open water swimming back-to-life within PVS is also exciting to me and hopefully, through your initiatives, we can make that happen soon!

Parents, thank you for always supporting your swimmers and their swimming buddies. Without your help we cannot possibly make meets work. Please work with us to find a resolution to the volunteer issues that tend to plague some meets. Help us learn how to entice parents to join us on deck as timers and marshals and other volunteer positions needed to make all meets work.

Finally, thank you to all the members of this Board, for accepting me into the fold and providing sound guidance. Hopefully, I listened well enough and presented ideas important to our membership as needed. I look forward to working with you all again next year.

Respectfully submitted,

Cherlynn Venit

Administrative Vice Chair
