

Report of the PVS Webmaster
May 23, 2006

- Data on the use of the PVS website since its inception in November 1997 is below.
- After usage grew for many years, it has leveled off in the most recent years.
- Many thanks got to Tim Husson for posting meet results and maintaining both times databases throughout the year and to Janet Auger for taking over other responsibilities in recent months.
- PVS moved its primary database to TM4Online last year in order to assure we were utilizing a fully supported commercial product. Times are also loaded in the USA Swimming SWIMS database.
- Advent of On-Line Meet Entry (OME) and Times Recon will make timely and accurate entry of meet results even more critical.
- Tim also redesigned the front page last September and reorganized how new postings are highlighted.
- As the site gets older and bigger, we are still maintaining historical data for reference. Our usage data shows it is being routinely accessed. However, maintenance and assuring all sections are still appropriately organized and relevant becomes a greater challenge.

DATA ON USEAGE OF PVS HOMEPAGE

	Hits	Hits/Day	Accesses	Accesses/Day	Data Downloaded	Data Downloaded/Day
1997*	144529	3212	34131	758	457.30	10.16
